Here are some hints which will help out your pick-style playing considerably.

- Hold your pick between your right hand thumb and the left side of your index finger tip, keeping your thumb perfectly straight so that it is tension free. The other fingers should be curved and relaxed
- The pick should be held loosely enough that there is a little give and take when you strike a string. This way you won't feel like you're digging in or dragging across the string.
- The pick should strike each string perpendicularly or straight on, as opposed to striking the string at an angle. You will get a fuller sounding note this way.
- Also, only the tip part of the pick needs to strike the string. There is no need to dig your pick down between the strings. This creates too much resistance.
- When you use a pick, your up and down picking motions come from your hand, wrist and forearm at the exact same time. They move as 1 unit in a rotary motion and your wrist stays perfectly straight.
- Keep your middle, ring, and little fingers loosely held back in the palm of your hand - don't give in to the temptation of resting your little finger on the pick guard or the face of your guitar. This will only serve to glue you into 1 position and will cut down on your mobility and freedom of motion.
- At all times your hand should feel and be relaxed. If it is not then you play either slower than you can or rhythmically stiff sounding.

A picture to demonstrate

Here is the overall. See how little of the tip is out!!

How the pick is on the thumb

Should give you a good idea on how to hold it.

- Make sure that just the tip is out.
- These pictures show the basic idea. I suggest even less out than the pictures are showing. In taking the photos, I found that if I held as little of the pick out as I usually do, that it could barely be seen.
- Strum
- You should pivot at the wrist.
- Only go a little beyond the strings when strumming.
- Start with all down strum (1/4 notes).
- Then add in up strokes between the down strokes (1/8<sup>th</sup> notes).

## Basic Strums

Frank Markovich

# Basic Strums

Frank Markovich

Start with alternate down up as 1/8<sup>th</sup> notes. Keep the wrist loose for all of these. The hand goes down up and only misses where the rests are (looks like a 7). Will do each measure a number of times until you get it. Apply to the following songs.

In Ukulele terms measure 1 is D U D U  
D U D U measure 2 is  
D D U D U D U  
Measure 3 is D D U U D U

**SURFIN' U.S.A. Strum: 1/8<sup>th</sup> note all down – D, D, D, D, D, D, D, D**

C G7 Tacit C  
If ev'rybody had an | ocean, | across the U.S. | A.

C Tacit G7 Tacit C  
Then ev'rybody'd be | surfin' | like Californi- | a

C Tacit F Tacit C  
You'd see them wearin' their | baggies, | huarachi sandals | too

C Tacit G7 F Tacit C  
A bushy bushy blond | hairdo, | surfin' U.S. | A.

C G7 C  
You'll catch 'em surfin' at | Del Mar, | Ventura County | Line

C G7 C  
Santa Cruz and Tressels, | Australia's Nara- | bine

C F C  
All over | Manhattan | and down Doheny | Way

C G7 F C  
Ev'rybody's gone | surfin' | surfin' U.S. | A.

Will add in Tacits the first section. Play the chord for 1 measure then strum only one beat in the second measure and stop the sound. Then after you master that do the same thing but on beats 2, 3 and 4 in the 2<sup>nd</sup> measure tap the top of the ukulele.

**Introduction:**

$\text{♩} = 120$

One option is to play 1 beat of C to 1 beat C6 – 2 times per measure. Then the same idea for G7 but play a G to G6, lastly for F play F to F6 one beat each.

C Tuning  
 ① = A ③ = C  
 ② = E ④ = G  
 ♩ = 120

Below is a blues backup for the Chords - Optional

C/G

This can take some time to get used to it. I suggest that you do one chord at a time – learn what to do with the C chord then the G chord and lastly the F chord.

This will also be covered when I teach the Blues get together. That will be in November.
